MIDNIGHT SUN

DUSKY ROSE

BLUE BUTTERFLY

NIGHTINGALE

f u c h s i a s

Visit our gardens in Ross, seventeen miles north of San Francisco across the Golden Gate Bridge. We have specimen plants of all the fuchsias listed in this catalog, growing and named, in our gardens for display and bloom. Also shown are the various ways in which they can be grown, such as fuchsia standards, hanging baskets, etc. Potted plants range in price from 65 cents in 4-inch pots up to \$10.00, according to size of plant.

Read carefully before ordering. Write plainly. Print your name and address clearly. Remit order by check or money order. Currency or coins are acceptable but we cannot be responsible for loss.

RETAIL PRICES

All our new 1960 introductions in 2½-½ pots \$.75 each.

As we specialize in the newer varieties, all 1960 introductions by other hybridizers may be ordered by mail or obtained at nursery.

All other varieties in 2½ - ½ inch pots \$.50, except patented and trade-mark registered varieties which are \$.75. We find a well rooted plant this size stands shipping best with less shock.

Special offer of 12 plants, in 2½ - ½ inch pots, all named varieties, our selection, \$5.00. List varieties you already have and we will not duplicate.

At times we may be temporarily out of certain varieties, so when ordering please name one or more substitute plants for second choice.

We guarantee all plants to be in perfect condition when shipped. Unless otherwise ordered, all plants are sent express collect. If you wish to have your order sent by parcel post, please be sure to so indicate and to include \$.75 to cover mailing charges. Packing free.

Minimum shipment \$3.00. On all orders for delivery within California, please add the 4 percent California Sales Tax.

PLEASE REMEMBER WE ARE CLOSED ON THURSDAYS.

We are members of AMERICAN FUCHSIA SOCIETY and CALIFORNIA ASSOCIATION OF NURSERYMEN.

NOTE — We are a "Pinto Tag" nursery;
this assures prompt delivery.

1960 *Introductions*

by

Muriel Waltz

These fine choice varieties of Fuchsia we think you will find hardy, early bloomers, easy to grow.

BLUE BUTTERFLY. A medium to large semi-double trailer, distinctly different. Short tube and long white sepals are white, corolla a deep violet blue splashed with white. As flower matures, inner petals open wide, turning a lush orchid shade with blue undertones. This flower, with its long lasting exquisite form, is well displayed on long willowy branches with small dark green foliage.

DUSKY ROSE. A large double natural trailer. The medium sized tube and long sepals which curl at tips are a clear deep coral pink, corolla a lovely shade of rose with coral pink splashes. As flower matures, color changes to a raspberry rose shade and opens into a fluffy ruffled bloom. Foliage medium sized, dark green.

MIDNIGHT SUN. A large double upright, a welcome addition to the tall varieties, the medium sized tube and broad upturned sepals pink outerside, underside a bright carmine, corolla a very dark burgundy purple while shorter outer petals are an even dark shade of burgundy red, with splashes of carmine and salmon pink at base of sepals. Foliage a rich shade of green.

MORNING LIGHT. A large double upright which can also be grown as a trailer. Tube and base of petals are coral pink, while the broad upturned sepals are snowy white outerside, flushed palest pink underside, a very beautiful bud. Corolla fully double is an exquisite shade of deep lavender blue, with overlaying petals of lavender and pink, flower fades rosy lavender with pink splashes on outer petals. Foliage an attractive shade of light green.

NIGHTINGALE. A large frilly double natural trailer, our first of the tri-colored varieties. The short tube and sepals are white, flushed pink, center of corolla a deep purple. As flower matures, center of corolla turns a bright magenta with outer petals of pink and white and coral tones, blooms are of heavy texture and long lasting, foliage a medium sized dark green.

Double fuchsias

ANGELA LESLIE. (Tiret, 1959.) (Patented.) Very large double deep pink corolla, well recurving medium pink sepals, tipped pea green. Intensity of color of corolla further enhanced by small spots and veins of rose coloring. Upright.

BLUE & GOLD. Plant with lemon yellow medium sized leaves. The blooms are large double, mauve blue. The sepals are palest pink. Blue & Gold is a vigorous growing plant. It will bloom heavily over a long season.

BLUE WAVES. (Waltz) Double corolla with waved petals of deep campanula violet, tube is flushed pink and the upturned sepals are Neyron rose. The outer petals are splashed rose while the center remains deep violet blue. Can be pinched to make a basket.

BRIGADOON. Large long bud opening into very large double flower of violet blue overlaid and marbled with fuchsia pink. Tube and broad sepals pink with light green tips. Tall willowy grower.

CAMILLE. A flower with a beautifully spreading corolla of Rose Bengal. Sepals are cupped and short, fully reflexed, colored crimson. The upright, bushy plant has wiry branches and foliage of medium size.

CANDLELIGHT. (Waltz, 1959.) (Trade-Mark Reg.) A large double rose shaped upright. The tube and broad upturned sepals are pure white outerside, slightly flushed pink underside. Corolla has overlapping petals of a very dark purple lilac fading into a bright carmine red. A medium size self-branching plant with good dark green foliage. Will trail.

CITY OF RICHMOND. Medium size spreading corolla of pale pink with white upturned sepals. Medium grower and will flower early in season.

DARK EYES. Double, deep violet blue, the petals curled and folded to form a full corolla of distinct shape. Short tube and short, broad, upturned sepals deep red. Medium low, bushy grower. Will trail.

DARK SECRET. Double corolla of deep violet, a few outer petals marked phlox pink, short greenish tube and heavy broad upturned sepals waxy white outside, palest pink inside. Bushy habit.

DESERT SUNSET. (Waltz.) The short white tube is flushed pink while the sepals are a rosy shade rather broad and curl upward. The corolla of smoky rose with splashes of coral and coppery tones turn a brilliant crimson as flower matures. Good semi-trailer.

EASTER BONNET. (Waltz.) Double pink upright bushy medium size plant, also grown as trailer. Short tube of flushed rose and broad frosty upturned sepals shading from deep pink at base of petals to pale pink tipped with green. Corolla is a lovely dusky rose pink with slightly deeper shade at base of petals.

FANTASY. (Waltz.) Semi-double, wide open flat flower. Corolla consists of 4 large double purple petals, palest orchid pink at wide open center, and shading to deep dodge purple at edges. The many stamens are extra long and flare out in a novel fashion from the open center.

FASCINATION. Large double pink, deep pink sepals. One of the finest, especially large in cooler climate.

FLUORESCENT. (Trade-mark reg.) A very beautiful fuchsia. Tube and long broad sepals white faintly marked pink, semi-double corolla deep lilac orchid, willowy grower. Will trail.

DOUBLE FUCHSIAS (*continued*)

FLYING CLOUD. (Patented.) Semi-double to double white. Tube and long spreading sepals white; petals with palest rose tint. Flowers are well placed on strong arching branches. An easy upright grower. Makes a fine pot plant.

FRENCHI. (Waltz.) Tube flushed white, the wide upturned recurved sepals are salmon pink, corolla silvery blue and pale rose mauve, with splashes of pink. The lovely bud when opened is rose shaped and the matured flower flaring open into a rather irregular picturesque form is almost as lovely as the bud. A gorgeous plant in bloom.

GEORGANA. (Patented.) A lovely large double in the soft pastel shades of pale blue and orchid. Stiff upright grower but would be wonderful as an espalier. A heavy and continuous bloomer all through the season. Large bright green leaves that make a fine background for its huge blossoms.

INNOCENCE. Double flowers are medium sized semi-double with spreading, glistening white petals, and upturned sepals of pale rose deepening to crimson at their base. Short tube is crimson.

JAMBOREE. A huge flowered double of brightest carmine. Irregular petals of this immense crisp flower are a dazzling color; tube and sepals are of same colors in a slightly less intense shade. Flowers open carmine. They do not fade; plant is upright.

JET FIRE. (Reedstrom.) (Trade-Mark Reg., 1959.) Double corolla with red petals surrounded with smaller shorter petaloïds. The flesh colored sepals fade and blend into a white tube. Upright.

KING'S RANSOM. A vigorous upright bush with many strong branches strung with globular, medium sized double

flowers. Broad recurved granular sepals are clear white, while the many petaled corolla is imperial purple.

LACE PETTICOATS. (Patented.) Double corolla of serrated petals of white shot with palest blush. Large full flower, out-spread white sepals. Is most white in the shade. Upright grower.

LADY BETH. (Trade-Mark Reg.) Upright or trailer, giant flowered double, bright violet blue with phosphorus sheen, some of the petals roll giving the form of an orchid, palest rose thick creped sepals.

LUNADO. Upright but will basket with early pinching. Tube and sepals are Rose pink. Double, very large corolla opens Petunia purple, fading to Spirea red. Numerous extra petals are Rose pink. The earliest bloomer in our trial planting.

MARIETTA. (Waltz.) A large double red upright of extra good substance. Medium long tube, buds, and broad upturned sepals are bright carmine, corolla a dark magenta red, has a few splashes of carmine on outer petals, as flower matures it turns a dark clear red.

MOONLIGHT. (Waltz.) Short tube and long frosted sepals are greenish white tipped with green, the corolla flesh pink has petals of light rose. As flower matures the colors deepen, and it flares open slightly. This plant is self-branching and very free flowering. Medium sized clean foliage. Hardy, heat resistant.

MY DEAR. (Waltz, 1959.) A double upright lavender beauty of medium size. The short white tube and recurved sepals are flushed white; the corolla, a warm shade of clear lavender, fades to a pinkish lavender with an iridescent undertone.

The plant is well branched and sturdy, yet delicate in appearance; foliage small and dark green.

DOUBLE FUCHSIAS (*continued*)

OLD SMOKY. A double, producing large flower of novel coloring. Tube and sepals flesh pink, underside of sepals pink, corolla old rose with a smoky cast. Upright grower useful as trailer also.

PAPA BLUESS. (Patented.) Double corolla of deep Bishop Violet slightly marbled at base with delicate crimson. Inner part of recurved sepals are carmine rose and outer part pale rose and ivory. Will trail.

PATRICIAN. Double, brilliant red corolla with white tube and white sepals, open to form a square blossom. Upright grower.

PINK FAIRY. (Waltz.) Large double clear pink corolla and creamy white tube with broad recurving sepals of palest rose. Petals of beautiful clear pink, slightly deeper near base when fully matured often open wide, giving a star-like effect to flower. A good self-branching upright with beautiful clean, dark green foliage which needs no pinching back to make a show pot.

PINWHEEL. (Waltz.) A large flat double upright in the pastel shades. Flower resembles a pinwheel in form. The short tube and buds are flushed pink. The pink sepals are broad, pointed, and turn back slightly at tips. Corolla a lovely shade of violet has folded petals which open wide in center, medium sized plant self-branching with a good foliage.

PRES. FELIX FAURE. A double of the darkest purple splashed with crimson. Will take heat; vigorous.

RASPBERRY. (Tiret, 1959.) Upright. Very large double raspberry rose corolla, long pointed sepals of pinkish white. Bushy habit of growth and seems to take heat very well.

ROSECREST. (Waltz.) A large double Fuchsia. The medium sized tube and broad upturned sepals are white slightly

tinged with palest pink underside. The open buds and corolla are a deep lilac mauve turning to bright carmine rose as flower matures.

ROSE PETALS. Short tube and broad upturned sepals red, corolla white flushed red at base of petals, good pot plant, large blooms.

RUBEO. Vigorous bush with large tugose foliage. Corolla ranging from deep rose bengal on center petals to crimson on outer ones; pale carmine tube, sepal carmine.

SAN LEANDRO. Double magenta to vermillion, tube and sepals carmine; upright grower; big flowers, heat tolerant.

SHY LADY. (Waltz.) (Trade-Mark Reg.) An exceedingly lovely double rose-like flower, exquisitely formed. Short tube, broad pointed upturned sepals of ivory white; corolla creamy ivory opens into a symmetrical formal flower. At maturity its many petals turn delicate light peach; upright grower, self-branching, free bloomer. Foliage dark green medium size, ideal potted plant; very showy.

SILVERADO. (Waltz.) A large double semi-trailer or bush variety. The tube and broad recurved sepals are creamy white flushed with pink. The corolla is beautifully formed full double to center, and has petals of pale silvery pink with a lavender undertone. The medium sized light green foliage make a fine background for these beautiful blooms.

SILVER BLUE. Double corolla a lovely soft silvery blue, paler toward center and near-white at very base of petals. Outer petals are attached to the broad white horizontal sepals, forming a big, round corolla when fully open. Medium-large deep green foliage on well-branched, upright bush of medium height.

DOUBLE FUCHSIAS (*continued*)

SNOW BALL. Large white double. Corolla creamy white and very double. Tiny flush of pink at base if in sun. Sepals long and reflexed. Vigorous grower but needs moist conditions in warmish shade with good drainage. A gorgeous flower.

SUNKISSED. Semi-trailer. Tube and sepals are Azalea pink; tips of sepals are Chartreuse green. Double, medium sized corolla is Jasper red spreading to Crimson. Continuous bloomer.

VIENNA. One of the best of the Gus Niederholzer blues. Tube and sepals bengal rose. Petals lilac blue, splashed with both light and bengal rose. Extra long pistil and well-formed stamens complete this flower. Free bloomer.

VIOLET GEM. A large semi-double flower of exceptional beauty, with short

stem and upcurved sepals of carmine. The widespread petals of deep violet have just a touch of carmine at the base. Prefers shade. Does not fade.

VOODOO. (Patented.) Double corolla darkest of any large double fuchsia a deep purple violet. Short tube and long sepals dark red. Very good.

WHITE MOST. Fluffy perfectly white corolla and faintly pink sepals; floriferous. A sensational beauty. Will trail.

WHITE WONDER. A double flower of snow white; wide sepals are crimson. Vigorous.

WINSTON CHURCHILL. A double corolla magenta pink, shaded blue, upturned sepals rose pink; strong medium high grower. Good sized flower and a continuous bloomer.

Double fuchsias Trailing

ANNA. Double corolla with outer half of petals strong magenta while the base of petals and the sepals and tube are strongest carmine.

ANGEL FLIGHT. Long white tube and wide deep pink sepals, double white corolla with long petals in center, shorter on outside good as trailer.

BALI HI. (Patented.) A beautiful full double corolla of blue violet fading to rose violet, slightly variegated in later shades. Sepals are pagoda like and colored ivory rose. Very heavy and continuous bloomer. Medium to large leaves of a slight olive cast. Makes fine basket.

BLOOMER GIRL. (Waltz.) The short tube and long sepals which turn straight up are bright carmine. There are two tiers of pleated petals; the longer ones are pale

pink veined carmine; the upper tier, with the same shadings, are pleated in tight at the base of the flower giving a puffed out appearance.

BLUETTE. Tiny lavender blue and rose red. Corolla double, lavender blue; sepals rose red. Dainty little plant covered with lovely tiny flowers. Pretty trailer.

CARNIVAL. (Patented.) Double of brilliant Spirea Red and glistening, frosty white sepals tinted on outer sides with delicate pea green. Long white tube, a heavy bloomer.

CHEFFITA. Double corolla opens purplish, then turns to a rosy hue, with a smoky overcast toward the petal edges. Broad, outspread, deep pink sepals. Much like a larger "Cherokee," on an upright, spreading bush or as a showy basket. Very free flowering.

DOUBLE FUCHSIAS TRAILING (*continued*)

CRYSTAL ROSE. (Martin, 1959.) (Trade-Mark Reg.) Trailer, double, pink lilac, orchid form with center petals downward, outer petals flat against bright rose sepals.

DOCTOR OLSON. (1959.) Double pale orchid pink with large center petals, surrounded by shorter spreading petals overlaid with purple with salmon flush, upturned bright red sepals.

DON PERALTA. Very large flower of semi-double corolla of deep carmine red, similar in color to ANNA. Vigorous trailer.

DUSK. Trailer with double pale blue corolla, shading to pink at base of petals. Tube and sepals palest blush pink.

ENCHANTED. (Patented.) Large campanula blue and rose red double flower. Corolla blue purple overlaid with fuchsia pink. Sepals rose-red. Natural trailer.

EMBERGLOW. Tube is Carmine. Well recurring sepals are Carmine rose tipped Pea green. Medium sized double buds open Lilac purple. As the corolla develops it changes into a smokey hue of China rose and Spirea red. Foliage is deep green and makes an excellent basket.

FIREBALL. (Waltz.) A large double naturally trailing variety that is unusual for its many color changes.

The short tube and broad upturned sepals are bright carmine-tipped green. The buds and corolla are a ruddy purple with splashes of carmine at base of petals as flower matures. Some petals turn a dark bluish purple, which again change into a red of great brilliancy.

FORT BRAGG. A sport of the fuchsia Enchanted, identical both in form of flower and habit growth.

The tube and broad upturned sepals are a rose shade, the large double corolla of pale lavender rose has a bluish tinge.

GIANT FALLS. Double globular corolla creamy white, slight pink veining at base of petals. Broad upcurved pink sepals are tipped palest green. Medium sized, deep green leaves, willowy grower, making long hanging branches. Large buds and large flowers. Continuous bloomer.

JUNGLE NIGHT. Deep purple double, bell shaped, with red sepals, similar to Mission Bell. Heat resistant. is palest pink blush.

LILAC 'N' ROSE. (Waltz.) A double and a natural trailer in a new shade of rosy pink, has medium long tube, and long pointed sepals of white flushed pink. Corolla with folded petals of lilac changes to a beautiful shade of bright clear rosy pink. Good foliage with medium sized leaves, self-branching, free blooming.

LILIBET. A double soft rose corolla flushed geranium lake, long tube and re-curved white sepals flushed pale carmine. Beautiful long pointed green tipped buds. Fine natural trailer.

MAMA BLEUSS. (Tiret, 1959, Pat. Pend.) This is a soft blue and pink "Enchanted." However, it is not a sport of "Enchanted." Has a beautiful trailing habit and is a heavy bloomer.

PINK GALORE. (Trade-Mark Reg.) Double, long corolla a beautiful soft rose or candy pink; tube and long, upturned sepals slightly deeper pink. A hanger of restrained growth, young branches and leaves have reddish stems.

PRELUDE. (Trade-Mark Reg.) Natural trailer, rose tube; sepals white, corolla double royal purple inside with white side petals which are fluted. A truly different coloring in Prelude.

DOUBLE FUCHSIAS TRAILING (*continued*)

PURPLE NIGHT. (Waltz.) A natural trailer with medium to large double flowers. Has short white tube and buds slightly tipped with pink at base of tube. Upturned sepals are frosty white flushed pink. Corolla a deep royal purple in heart of the flower, the outer petals are heavily marbled with white and phlox pink. Long willowy trailer.

RAMBLING ROSE. (Tiret, 1959.) Natural, self branching trailer. Medium large double corolla and sepals are soft rose. An exceptionally heavy bloomer in a color not previously found in trailing fuchsias.

RED JACKET. (Waltz.) (Trade-Mark Reg.) A gorgeous large fluffy double with the whitest corolla and the brightest red sepals and buds we have ever seen. The medium sized tube, long buds, even the extra-long pistil and stamens are the same rich shade of red. Sepals are long and upturned. A natural trailer, is an eye-stopper in a basket. Can be grown in garden by staking and will make a good standard or espalier.

SAN JOSE. A sport of San Pablo, identical in growth and size of flowers, but somewhat trailing. The corolla is white, sepals rose pink to rosy red, depending on exposure. San Jose has the popular red and white coloring and very large flowers.

SAN PABLO. A sport of San Mateo with even better trailing habits. Flower same form and size. Color rose orchid with rose pink stem and sepals.

SAN MATEO. Very large double victoria violet corolla, fuchsia pink splashes. Has leathery pink calyx. Fine hanger.

SHADY LANE. (Waltz, 1959.) A large double trailer tube and long, broad, re-curved sepals are clear coral pink tipped green. The fully double flaring corolla has overlapping petals of lilac blue splashed

with coral pink. Blooms on long, strong stems have exceptional lasting qualities and fade slowly to a pleasing shade of lavender rose.

SHALIMAR. (Trade-Mark Reg.) Huge double flower. Dense corolla of pale lavender blue petals marbled with rose, attached to a broad base plate. Tube is white, as is the exterior side of the sepals. The inside surface of the granular sepal is palest pink blush.

SIERRA BLUE. (Waltz.) The short tube and wide upturned sepals are white outer side, flushed palest pink underside. The corolla a full double of silver blue gradually becoming soft lilac as the blossom ages. Grown as an upright, the graceful arching branches display the blooms beautifully. Best as trailer.

SO BIG. (Waltz.) A double flowered pink and white natural trailer, with rather long rosy pink tube. Corolla is creamy white with long upturned sepals of pale pink which often measures five inches from tip to tip. Foliage a bright green and in a basket or standard, well cared for and pinched back early, will have lush almost tropical growth. Likes shade or filtered light.

SOUTH GATE. Double pink of very nice form. Corolla neyron rose; tube and sepals white tipped green, very good.

STRAWBERRY SUNDAE. (Trade-Mark Reg.) Extremely double bright strawberry pink corolla, sepals waxy ivory white tipped with green, foliage is small, compact medium green leaves, trailer.

STREAMLINER. (Patented.) Long, thin tube and long twisted sepals of bright crimson. Corolla semi-double and of the same shade. Natural trailer, free bloomer. Flowers are large.

DOUBLE FUCHSIAS TRAILING (*continued*)

SUMMER SNOW. (Waltz, Trade-Mark Reg.) Creamy white semi-double medium size, almost yellow cast to bloom when bud first opens. The white tube and the sleek, graceful white buds tipped with green hang from long stems. Recurved white sepals. Corolla white with overlapping petals of good substance for long keeping, heat resistance. Plant bloomed continuously throughout the season with drifts of creamy white flowers along trailing branches.

SWINGTIME. Double corolla is milky white. Tube and short, upturned sepals shiny red, inside of sepals rose red and of crepe texture; good grower of branching habit. Early free bloomer. One of our most popular trailing varieties.

THUNDERBIRD. (Patented.) It is a true and self-branching trailer. The tube and sepals which are extremely long are Neyron rose. The double corolla is vermillion spreading to China rose. An early and profuse bloomer.

TRAIL BLAZER. Best described as a double red spider, with sepals a little paler color. Real trailer, branches hanging directly down sides of basket.

TUTU. The large flat double flowers have densely spreading irregularly lobed petals of pale Rhodamine purple flecked with aster violet. The spreading sepals are palest rose inside and greenish white outside.

UNCLE JULES. Double violet blue, sepals crimson. Foliage is small, thick, and the growth scandent. Giant double of fine "blue" coloring.

WALTZ TIME. (Waltz, 1959.) (Trade-Mark Reg.) A large double natural trailer in the pinks. Tube and broad upturned sepals are pure white, tipped green outside and palest flushed pink underside. Corolla a full double has folded petals of glowing pink flushed slightly with pale pink at outer edges of petals. Its pink glory never fades despite the hottest weather. The plant is as superior as the blooms; has excellent foliage, and trails naturally.

WHITE BOUQUET. (Waltz, 1959.) An ivory white double upright of medium size. Tube and broad upturned sepals are ivory white with touch of pink at base of tube. The white buds with pale pink pistils open into a perfectly formed, fully double corolla with folded scalloped petals of heavy texture rare in a white fuchsia. Can be trained as a basket.

Single fuchsias

AURORA SUPERBA. Sepals and tube of light orange apricot, corolla of deep orange peach.

CARDINAL. Giant single scarlet red flowers in great profusion. Strong semi-climber.

CARMEL BLUE. Long single corolla of beautiful blue; long white tube and narrow, outspread white sepals flushed palest blush on underside. Vigorous upright bush with excellent foliage and lots of flowers.

CHANG. Single bright orange; flesh sepals flushed red. Strong upright grower, free bloomer.

SINGLE FUCHSIAS (*continued*)

CITATION. Single white corolla. Tube and saucer-like sepals light to rose pink. Bushy upright grower. Noted for abundance of big flowers. Deep green foliage. Considered tops.

ERECTA NOVELTY. Single white and pink, corolla margined with rose. Erect flowers.

GOLDEN GLOW. Single corolla of yellowish orange and the long, outspread sepals pale carmine with salmon flush. Heavy, waxy tube.

LORD BYRON. Small black purple and red. Corolla deep velvety purple; sepals bright scarlet. Dwarf bushy habit.

MABELLE EDWARDS. A single clear pink bell-shaped flower with long drooping stems.

Buds are long, white and pointed. Sepals of frosty white curl upward, corolla of pale pink has four overlapping petals with a few folded petals inside.

Upright growth, medium height.

MARIN BELLE. (Reedstrom, 1959.) Upright vigorous grower with single corolla of pansy violet, salmon pink sepals turned back on tube.

MARIN GLOW. Bush vigorous, self-branching to 4-foot corolla, single purple fading almost phosphorescent. Very good in pot or tub. Heat resistant.

MISSION BELL. Single bell-shaped flaring flower. Stem and sepals bright crimson, corolla royal blue, fading to magenta. Strong, upright grower.

MRS. RUNDLE. Very long tube and pointed sepals of flesh color with vivid orange corolla. Will trail.

OTHERFELLOW. A single, deepening from near-white at base to coral pink at petal edges; tube and short green-tipped sepals are waxy white. Strong upright grower. Very free bloomer.

PINK CLOUD. (Waltz.) Large single pink upright; short white tube; long, wide upturned pink sepals curl slightly at tips, buds are long and pointed. The corolla has four overlapping petals of clear pink, flaring at maturity; can be used as bush, pillar or espalier. A free bloomer and the largest single pink yet.

PINK JADE. Single corolla of medium orchid-pink with a distinct, deeper glowing rose border. Pink, upturned sepals tipped green. Very low grower, excellent for pot culture.

ROSE OF DENMARK. Lustrous rose pink, recurved sepals white. Medium sized flowers and free bloomer.

SCARLET BABY. Graceful single red and purple; bright red curved sepals; pistil and stamen long; grows vigorously.

SLEIGH BELLS. All white beautiful single flower. Has long, thin, pointed upturned sepals tipped green, and a slim white tube. The single corolla forms itself into a perfect bell. Ideal espaliered, can also be grown as a bush.

SUNRAY. Ornate variegated foliage, silvery white and green. Rosy purple corolla and salmon sepals.

SUNSHINE. A bushy type plant with an abundance of bright medium sized single flowers. Tube pale rose, and sepals pale Tyrian rose tipped with pale green. The petals are bright geranium lake shaded with rose carmine margin and are often serrated.

SUNSET. A well-shaped bush with fine foliage, pale pink calyx, and wide open single corolla of brightest sunset color.

TING-A-LING. (Schnabel-Paskesen, 1959.) A vigorous upright grower with large clusters of bell-like, all white single flowers. Ting-A-Ling is similar in form to "Mazda" with reflexed sepals. Small foliage.

Single *Fuchsias* Trailing

AMERICA. Long thin tube and sepals rose madder on the outside, solid crimson on the inside. Single short corolla deep crimson.

AUTUMNALE. Highly colored foliage of bronze, orange, yellow and green. Grow in sunnier location. Pinch back frequently.

CARA MIA. Cara Mia has cascade growth. Semi-double globular corolla is deepest crimson while the long, graceful sepals are palest rose-pink, slim, pointed and reflexed. Blooms along the entire length of branch.

CASCADE. Masses of large single blooms, long pointed sepals white flushed carmine and deep carmine corolla, spread of sepals usually about 6 inches.

GLOWING EMBERS. Trailing, large, single corolla of burnt orange to red and the tube and thick sepals a watermelon pink.

GOLDEN MARINKA. A sport of Marinka with the same easy, self-branching habit of growth, deep red flowers and red stems. However, each leaf is variegated with gold, especially near leaf edges, turning to cream as the leaves mature.

JACK SHANAN. The long tube and pagoda-shaped sepals are of the palest rose bengal and the petals of the same color are margined with a darker shade.

MANTILLA. Trailer with soft willowy branching growth. Bronze foliage. The flowers are deep carmine. Tubes 3 inches in length. The petals are spreading with pagoda-like sepals. Free bloomer.

MARINKA. Almost a self-color with rosy scarlet corolla and crimson scarlet sepals.

PINK ELEGANCE. A Waltz Garden patent, No. 143,684. Tube long sepals upturned, salmon pink on the inside, flushed pink on the outside. The bell-shaped corolla has overlapping, often pleated petals of bright phlox pink wide spreading at petal tips. Prefers morning sun, or filtered light.

PURPLE SAGE. Single saucer-shaped deep purple corolla opening perfectly flat with recurved deep red sepals. Medium grower.

RED SPIDER. The spidery flowers have a long tube and exceedingly long narrow horizontal sepals of the deepest crimson; long downward pointed petals of deep rose madder veined and margined deep crimson.

STARRY TRAILS. (Waltz.) A natural single trailer, very long graceful buds and wide spreading sepals. The tube, streamlined buds and long thin sepals are rosy pink. Corolla has overlapping petals of bright carmine, tipped with creamy white at base of tube.

TINKER BELL. Long single white corolla, veined soft pink. Tube and long, spreading and then upturned sepals range from white to pink, sepal inside soft pink, deepening to carmine at tips. Best displayed as hanger. Profusion of fairly large flowers of fine proportion, soft coloring. Small foliage.

Notes

A MINIATURE MANUAL FOR FUCHSIA CULTURE

SOIL—Is to be rich in humus, water absorbing by the addition of leaf mold, coarse sand or sponge rock; loose subsoil is necessary to provide for drainage. We had wonderful results with one-quarter leaf mold, one-quarter Blue Whale peat moss, and one-half good soil with sand or sponge rock mixed in soil. Blue Whale nourishes your plants while conditioning the soil.

WATER—Keep soil damp at all times and frequently give overhead shower and a fine moderately sharp spray on the underside of foliage to discourage aphids, white flies, thrips and spittle bugs.

LIGHT—Is essential; hot and direct afternoon sunshine is to most varieties harmful. Give morning sun only, wherever possible; or sunshine filtered through trees or overhead lattice-work. Dark walls or fences in a shady place should be painted a light reflecting color.

FERTILIZERS—A mulch of Blue Whale peat is advocated with additional feeding of Liquid Whale feeding often, always careful to use as directed. In the spring your fertilizer should be high in nitrogen; and phosphates later in the season to bring out the blooms.

INSECT PEST CONTROL—Persistent vigilance and frequent use of sprays to keep pests out of your garden is much more effective to drive them out after occupation. Insecticides are plentiful.

CARE OF GROWING PLANTS—Most varieties have brittle branches and require protection by stakes, by lattice-work or by fastening to walls or fences. In order to shape plants to fit requirements or wishes, eliminate all unwanted growth at any time. To extend flowering season and to improve the quality of blooms pick all flowers as soon as they have passed the prime of their life. Never let seed pods or berries grow. Hoeing near the plants is bad. A three to five inches deep mulch of some organic litter held down around the plant as far as the roots are suspected to spread and kept moist will keep the soil loose and cool in summer, also provide the best protection against frost in winter.

PRUNING—At the season of complete or near dormancy is essential to produce new growth which in turn gives the best flowers. All vigorous branches should be cut back to one or two pairs of dormant buds. The very spindly twigs and those interfering with others are best eliminated entirely by gently breaking them off at their base. All pruning has to be controlled by the consideration of what the plant is desired to be like in the future. Parts of plants damaged by frost should be cut out entirely. Plants frozen down to the ground will produce good new plants from the roots if protected by a mulch.

A LATTICE CONSERVATORY OR LATH HOUSE—Is the greatest boon to the fuchsia specialist. It provides the basis for the nearest imitation of the jungle atmosphere in which fuchsias feel at home. It will offer to you the chances to join the ranks of fuchsia connoisseurs who grow the best varieties to real perfection.

POT CULTURE—As the wave of interest in the new fuchsias spreads to many parts of the country where the climate is less favorable to outdoor growing, pot culture gains in importance. But even in the most favored Pacific regions potted plants are highly treasured for periodical display on porches, verandas, on steps leading to home entrances. Plants in pots need water daily. Extra rich soil and more feeding in liquid form during the flowering season is needed. This is especially important for hanging pot plants.

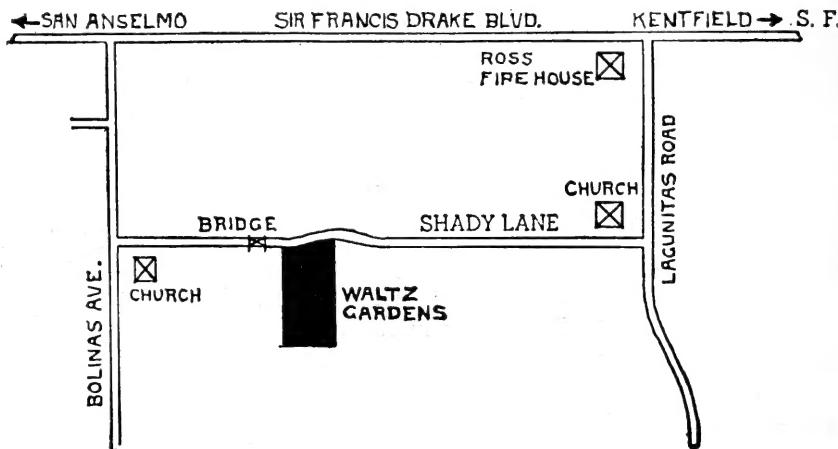

Fuchsias for Special Purposes

If you are planning a fuchsia garden or wish to train fuchsias tree shape, pillar, trellis, etc., we would be pleased to help you select the proper varieties.

Join The American Fuchsia Society! They publish a monthly bulletin which is helpful to fuchsia lovers and shade gardeners. Dues at \$2.00 per calendar year. Address: Mr. C. T. Le Hew, 1633 Moreland Drive, Alameda, California.

How To Find Our Garden

PLEASE REMEMBER WE ARE CLOSED THURSDAYS.
